

## Instructions for accessing your MP3 digital downloads:

- 1) After your purchase through PayPal you will receive an email that will include information such as the following:

- 2) When you click on each link, the files will automatically open or a new window will appear like this one below:

- 3) Select the "Save File" option. (The file may automatically be placed in your "Downloads" folder on your computer, or will provide you with a choice of where you want to save the files, such as your Desktop). Select OK. Note: the time required to download the files will depend upon your internet service and computer's capability.
- 4) When the download is complete you will need to unzip and open the file. In most computer systems you can do this by right-clicking on the zipped file.

- 5) You can then play the tracks with the media player of your choice, or copy and paste the files to a folder of your choice on your computer system.
