

*Margaret was my mentor and my midwife. She entered my life at a critical point in my own spiritual journey and with her signature combination of clarity, honesty, and tough love, pushed me through. Virtually everything I have learned, accomplished, and brought into being these past twenty years I owe to her."*

~ Cynthia Bourgeault

Margaret Haines, founding president of The Contemplative Society, was also a dear friend of Cynthia Bourgeault's. Margaret planted the seed that would grow and flourish into a 20-year relationship between Cynthia and TCS. That relationship has helped encourage contemplatives from all walks of life and from all over the world: from offering fledgling contemplatives their first opportunities to practice, to nurturing young teachers into capable bearers of this long tradition, Margaret Haines' impact on The Contemplative Society and the contemplative community as a whole is a powerful legacy. To honour her gift to the world and to celebrate our 20th anniversary, we have established a scholarship fund in her name to ensure contemplative practice remains accessible to all and to attract future contemplatives. We hope you will join us in building that future – it's in your hands...Donate today!

*"... I simply cannot emphasize enough how important The Contemplative Society has become in supporting my work...It's allowing contemplatives from all over the world to connect in a "network of hearts" ... what a pivotal role the Society is playing, both in supporting me personally in my teaching and in helping bring this teaching to the world..."*

~ In gratitude, Cynthia
